[david.spalding@dinsmore.com](mailto:david.spalding@dinsmore.com)

Groton, CT  
Tel: (860) 865-1152

David is an Intellectual Property attorney who spent over four years in-house at a leading Fortune 100 company. He has cultivated a robust practice in patent law and strategy, demonstrated by an impressive track record of drafting and prosecuting patent applications. David has successfully drafted numerous original filings and skillfully managed the examination process at the Patent Office in a wide spectrum of technical fields.

His experience covers technology areas that include telecommunications, AI, machine learning, neural networks, natural language processing, semiconductors, cloud computing, virtualization, as well as computer and mobile hardware. His strategic approach to patent development is underscored by his ability to navigate complex subject matter eligibility issues in prosecution.

Before transitioning to the legal field, David built a versatile technical career in the telecommunications and broadcasting industries, providing him with a unique perspective and deep technical insight that greatly benefits his patent prosecution work. David's practice is marked by his commitment to advancing his clients' intellectual property needs while navigating the intricate intersections of technology and law.
